PROFILE

Frontend developer with remote freelance experience delivering React/Next.js interfaces, dashboards, authentication and real-time features. Built and deployed full-stack products with PostgreSQL, Prisma and production workflows. Seeking a Junior Frontend Developer, Trainee Developer or Frontend Internship opportunity.

PROFESSIONAL EXPERIENCE

Frontend & Media Content Developer | RevenueBot *Aug 2024 – Feb 2025 · Remote · Freelance*

- Redesigned website interface components and built new pages with HTML, CSS/BEM and JavaScript; improved visual consistency and worked on SEO and performance.
- Produced social media posts and promotional videos/visuals to support product marketing.

Full-stack Developer | KI Recruitment *May 2024 – Aug 2024 · Remote · Freelance*

- Led development of a client-management dashboard using Next.js, TypeScript, Prisma and Shadcn UI.
- Implemented real-time UI updates with Pusher, chat, email notifications and Google/credentials authentication.
- Integrated Wix website form data and developed backend logic and API integrations.

SELECTED PROJECTS

Listiq | *Next.js · TypeScript · Prisma · PostgreSQL · Vercel* GitHub · Live

Full-stack media tracker with CRUD libraries, reviews, custom/shareable lists, privacy controls and role-based moderation of user-submitted titles. Built recommendation/discovery flows informed by previous user choices and catalog rating/scoring logic. Integrated external media catalogs with scheduled daily sync, retry/monitoring workflows, and API attribution; deployed to Vercel with Neon PostgreSQL, Prisma migrations and isolated Preview/Production environments.

macOS Portfolio | *React · Vite · GSAP · Zustand · Tailwind* GitHub · Live

Interactive macOS-style desktop with draggable, focusable windows, Finder-style project navigation and a virtual file system. Built reusable window behavior, animated dock/UI, image and PDF previews, and an embedded Snake game.

Messenger Clone | *Next.js · TypeScript · Prisma · MongoDB · Pusher* GitHub · Live

Real-time chat application with Google/GitHub OAuth via NextAuth, conversations and live message synchronization, user presence, protected routes and private-channel authorization.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Next.js, HTML, CSS/SCSS, Tailwind CSS, GSAP, Zustand, Redux, shadcn/ui
Backend & data: Node.js, Express, REST APIs, Prisma, PostgreSQL, MongoDB, NextAuth, Pusher, Socket.IO
Tools: Git, GitHub, Vercel, Neon, Cloudinary

EDUCATION

WSB Merito University, Wrocław | B.Sc. Software Engineering | 2024–2027 (expected)
Mate Academy | Frontend Developer Course | 2025
